From their point-of-view  
it - is reasonable - I believe  
they say among themselves  
that the whole thing is 'faked'-  
but - they don't show us

What - they think is that

- They cannot believe

The more so because

Later, we must attack

It might be of use to cut

such a letter as the Editors suggest.  
But - to return to that  
famous meeting which  
seems to mark a new

I do you think, I might

then, if you wished to

P.S. I have ventured to cut
